ABOUT ME

My name is Raha Lariche, a UI/UX designer with 3 years of experience in designing user interfaces and experiences for websites and mobile applications currently in use. I am proficient in creating user-friendly and intuitive interfaces, optimizing user experiences to align with business objectives, and have expertise in tools such as Figma, Sketch, and Adobe XD. I place a strong emphasis on attention to detail and understanding user needs. My focus lies in solving complex design challenges and developing digital experiences that actively engage users. Additionally, I have experience working alongside development teams within Agile frameworks. I am committed to seeking innovative solutions to improve user interactions and deliver impactful digital products. My design approach is grounded in minimalism and user-centric principles, with a strong focus on problem-solving and enhancing product performance.
